Quality Policy

Yapp Global Quality Policy

Advanced technology, lean management, continuous improvement, excellent quality – more than customers expectation

Yapp USA Quality Policy

YAPP USA Automotive Systems produce fuel tanks and filler pipes, we are committed to manufacture our products with quality, focus on our customer and continual improvement of internal processes.

By implementing IATF Quality Standards our Quality Management System involves all our leadership roles providing a framework for setting Quality Objectives with a process approach and in accordance with internal and external applicable requirements to meet or exceed customer satisfaction within the automotive space.

Motivating and involving all employees to promote communication within all levels of YAPP USA Automotive Systems and helping out to reactivity and efficiency of our organization.

“To meet and exceed our customers’ expectations by Continuous Improvement and Teamwork”
